Pradeep Gunda

AWS Certified Pega CLSA | AWS | Azure | Decisioning | GenAI |
RAG #
United States

Summary

• 17+ years of overall experience in architecting enterprise-
scale solutions with deep specialization in Pega-based BPM
systems, solution modernization, process optimization, and digital
transformation initiatives. Proven track record of integrating Pega
with emerging technologies including GenAI, Langchain, and LLM-
powered Retrieval-Augmented Generation (RAG) applications.
• Experienced Pega CDH and Decisioning Architect with 4+ years in
designing end-to-end personalization strategies using NBx, adaptive
models, and real-time integrations.
• Currently leading architecture initiatives for New Jersey Judiciary,
enabling modernization and criminal justice reform. Passionate about
bridging traditional BPM with AI-driven automation using Python,
transformers, and cloud-native technologies. Extensive experience
working with cross-functional teams and C-level stakeholders to
drive value across public sector, financial, and healthcare domains.
